⌖ Athens, Greece · Open to EU / international roles

I am drawn to environments where capital allocation, competitive insight and rigorous analysis meet: **investment banking, hedge funds, private equity, strategic consulting, boutique advisory firms and high-growth startups**. My path through **Deloitte Strategy & Transactions** and **Risk Advisory** (including QCE) matches that ambition: multi-million-euro capital compliance mandates, investment-grade dashboards, due-diligence-style data work and quantitative risk reviews. Alongside a completed Master's in Accounting & Finance and a distance **M2 Intelligence Économique at IAE de Poitiers (France)**, I am looking for a full-time role in these fields where I can deepen deal, research and strategy exposure and contribute from day one.

CORE COMPETENCIES

INVESTMENT & TRANSACTIONS

- Financial Modelling
- Business Valuation

PROFESSIONAL EXPERIENCE

Experienced Junior Consultant & Quality Control Evaluator
Feb 2025 – Jul 2026

Deloitte Greece · Risk Advisory & Internal Audit ▲ Promoted Jul 2025 · QCE Appointed May 2025

- Conduct **Quality Control Evaluations** within the healthcare compliance framework, ensuring deliverables meet rigorous regulatory and risk standards.
- Lead **complex compliance case analysis**: automating extraction, validation and reconciliation of operational data, identifying control failures and quantifying financial risk exposure for senior stakeholders.
- Develop **internal control evaluation frameworks** and **workflow automation** for recurring QC workflows, translating audit findings into executive-ready insights and process improvement recommendations.

Junior Consultant and Financial Analyst
Aug 2024 – Feb 2025

Deloitte Greece · Strategy, Risk & Transactions Advisory

- Executed financial controls and compliance audits for **multi-million-euro government funding mandates**, ensuring optimal and compliant capital utilisation.
- Built **Advanced Excel automation** to aggregate, cleanse and model complex financial datasets for regulatory reporting: a direct analogue to investment memoranda and due diligence data-room work, replacing manual reconciliation cycles.
- Designed **dynamic dashboards in Qlik Sense and Advanced Excel**, fed by **structured data pipelines**, providing executive leadership with real-time KPI visibility and decision-support intelligence.

Financial Products and Platform Advisor
May 2024 – Jun 2024

Assistwise · Financial Trading Platform

- Advised clients on **financial instruments and trading platform mechanics**, demonstrating commercial fluency in capital markets and investment products.
- Managed structured client reporting and negotiated service agreements, developing analytical communication skills in a live financial services environment.

Ambassador and Financial Sciences Educator
Jul 2023 – Present

Superprof · Financial Modelling · Econometrics · Capital Markets

- Instruct university students and professionals in **Financial Modelling, Econometrics, Financial Mathematics** and Macro/Microeconomics, demonstrating deep quantitative mastery.
- Translate complex quantitative models and financial theories into structured, accessible frameworks: reinforcing analytical rigour across high-level financial topics.

Management Controller (Internship)
Jan 2023 – May 2023

Al Barid Bank · Regulated Banking Environment

- Assisted in corporate **financial planning, variance analysis and budget monitoring** to ensure performance targets were met within a regulated retail banking framework.
- Contributed to the preparation of **monthly financial performance reporting** packages for senior management, developing structured output and synthesis capabilities.
